

Generic Country Cancer Screening Fact Sheet *[one form for each cancer site]*

1.	General information	
1.a	Country:	[] [] [] []
1.b	Reporting for: <i>(the entire country/particular region(s) only)</i>	[] []
1.c	Name of the region(s) if reporting for region only:	
1.d	Cancer site: <i>(Breast, Cervical, Colorectal, Prostate, Lung, Gastric, Thyroid, Oral, Other: _____)</i>	[] []
1.e	Source: <i>(Programme, Ministry, Institution, Report, Publication, Other _____)</i>	[] []
2.	Screening organization	
2.a	Is there an individual/team/institution responsible for management/coordination of the cancer screening activities in your region/country? <i>(yes/no/unknown)</i>	[] []
2.b	If yes, please provide name of individual/team/institution:	
2.c	Is there a budget dedicated to cancer screening? <i>(yes/no/unknown)</i>	[] []
2.d	Is there a documented policy (national or regional) that recommends routine screening for the cancer site you are reporting? <i>(yes/no/unknown)</i>	[] []
2.e	If yes, how is the policy documented? <i>(law/official recommendation/other)</i> <i>(link to the document if possible)</i>	[] []
2.f	Was a pilot implemented before introduction of the screening programme? <i>(yes, and the current report is that of the pilot/Yes, report already published/No)</i>	[] []
2.g	Year screening programme was initiated in the country/region: <i>(9999 if no programme)</i>	[] [] [] [] [] []
2.h	Are the screening tests provided free of charge (includes reimbursement by public insurance) to the eligible population? <i>(yes/no/unknown)</i>	[] []
2.i	If the screening tests are not free, is there a co-payment? <i>(yes, the whole sum is charged/yes, partially/no/unknown)</i>	[] []
2.j	Are the diagnostic tests free of charge (includes reimbursement by public insurance) to the screen-positive individuals? <i>(yes/no/unknown)</i>	[] []
2.k	Are treatment services provided free of charge (includes reimbursement by public insurance) to individuals with confirmed diagnosis? <i>(yes/no/unknown)</i>	[] []
2.l	Any other information related to status and organization:	
3.	Information system and data collection	
3.a	Does the region/country have a computerized information system that collects screening-related information on individual basis? <i>(yes/no/unknown)</i>	[] []
3.b	If yes, at which level? <i>(Screening centres/diagnostic centres/treatment centres)</i> <i>(multiple responses)</i>	[] [] [] [] [] []
3.c	Does the region/country have a computerized information system that collects screening-related information on aggregated basis? <i>(yes/no/unknown)</i>	[] []
3.d	If yes, at which level: <i>(Screening centres/diagnostic centres/treatment centres)</i> <i>(multiple responses)</i>	[] [] [] [] [] []
3.e	Does the computerized system collect information on screening outside the programme (opportunistic screening/private sector)? <i>(yes/no/cannot differentiate/unknown)</i>	[] []
3.f	Are there screening registries covering the entire country/region (may also be called screening hubs)? <i>(yes/no/unknown)</i>	[] []
3.g	If yes, at which level? <i>(national/regional/both national and regional)</i>	[] []
3.h	Are screening data linked with population-based cancer registries (PBCR)? <i>(yes/PBCR exists but not linked/No PBCR/unknown)</i>	[] []
3.i	Any other information related to information system:	

4.	Screening protocol	
4.a	Year in which the current protocol was developed/updated: [] [] [] []- YYYY	
4.b	Screening test [] Target age ([] [] - [] []) Screening interval ([] [] months)	
4.c	Screening test [] Target age ([] [] - [] []) Screening interval ([] [] months)	
4.d	Screening test [] Target age ([] [] - [] []) Screening interval ([] [] months)	
4.e	Screening test [] Target age ([] [] - [] []) Screening interval ([] [] months)	
4.f	Screening test [] Target age ([] [] - [] []) Screening interval ([] [] months)	
4.g	[Cervical] Screening tests: <i>(VIA, HPV, Cytology, HPV and cytology)</i>	[] [] . [] [] . [] [] [] <i>[Multiple answers allowed]</i>
	[Breast] Screening tests: <i>(1. (Mx or DBT) only, 2. (Mx or DBT) + (CBE or US), 3. CBE + US, 4. US only, 5. CBE only)</i>	[]
	[Breast] Is Tomosynthesis used as screening test? <i>(yes/no/unknown)</i>	[]
	[CRC] Screening tests: <i>(FIT, gFOBT, stool DNA, Flexible Sigmoidoscopy, colonoscopy, virtual colonoscopy)</i>	[] [] . [] [] . [] [] [] <i>[Multiple answers allowed]</i>
4.h	[Cervical] If HPV test is used, is self-collection of samples recommended? <i>(yes/no/unknown)</i>	[]
4.i	[Cervical] Triaging test used: <i>(none, VIA, HPV, cytology, other)</i>	[]
4.j	[Cervical] Is 'screen and treat' included in the screening protocol? <i>(yes/no/unknown)</i>	[]
4.k	Any other information related to protocol: <i>(provide a flowchart if possible)</i>	
5.	Invitations for screening and further assessment	
5.a	How are eligible individuals identified? <i>(population data/opportunistically/other_____)</i>	[]
5.b	If identified via population data, what is the source of data? <i>(Population register/electoral roll/GP list/List from insurance company)</i>	[]
5.c	Is there an annual target for screening coverage to be achieved: <i>(yes/no/unknown)</i>	[]
5.d	If yes, what is the target? <i>(Provide data as % of total eligible population; write 'var' if variable target)</i>	[] %
5.e	Are individual invitations used in screening recruitment? <i>(yes/no/unknown)</i>	[]
5.f	If the eligible population is invited individually, how are these invitations sent? <i>(Letter/email/phone calls/SMS/home visits by health worker/other)</i>	[] [] . [] [] . [] [] [] <i>[Multiple answers allowed]</i>
5.g	Are the individual invitations sent? <i>(for the entire target population/for the target population excluding those covered by opportunistic screening)</i>	[]
5.h	[Cervical HPV test] or [CRC] Does the invitation include screening kit? <i>(yes/no/unknown)</i>	[]
5.i	Are the screen-positive individuals actively contacted to ensure compliance with further assessment? <i>(yes/no/unknown)</i>	[]
5.j	Are the individuals with a precancer or cancer diagnosis actively contacted to ensure compliance with further management? <i>(yes/no/unknown)</i>	[]
5.k	Does the programme collect data on the treatment of the precancer/cancers detected through the programme? <i>(yes/no/data collected on treatment but cannot differentiate between those detected through programme and those not/unknown)</i>	[]
5.l	Any other information related to invitations:	
6.	Monitoring and quality assurance of screening activities	
6.a	Is there a documented standard operating procedure/policy for quality assurance? <i>(yes/no/unknown)</i> <i>(If yes, link)</i>	[]
6.b	Is there a person/team responsible for quality assurance of the screening activities? <i>(yes/no/unknown)</i>	[]
6.c	Are there documented performance indicators and their reference standards to assess the performance of screening? <i>(yes/no/unknown)</i>	[]

6.d	Are performance reports prepared and published? <i>(yes/no/unknown)</i> <i>(If yes, link)</i>	[]
6.e	If yes, how frequently <i>(in years)</i> ?	[] []
6.f	Any other information related to monitoring & QA:	
7.	Status of screening services	
7.a	Screening services are? <i>(Population-based/population-based for selected populations/opportunistic/other)</i>	[] [] [] [] <i>[Multiple answers allowed]</i>
7.b	If screening services are population-based, current status of implementation: <i>(fully established, phased implementation, rollout ongoing, rollout completed, pilot)</i>	[]
